

iRODS in compute jobs

Data, what's the problem?

Experiments

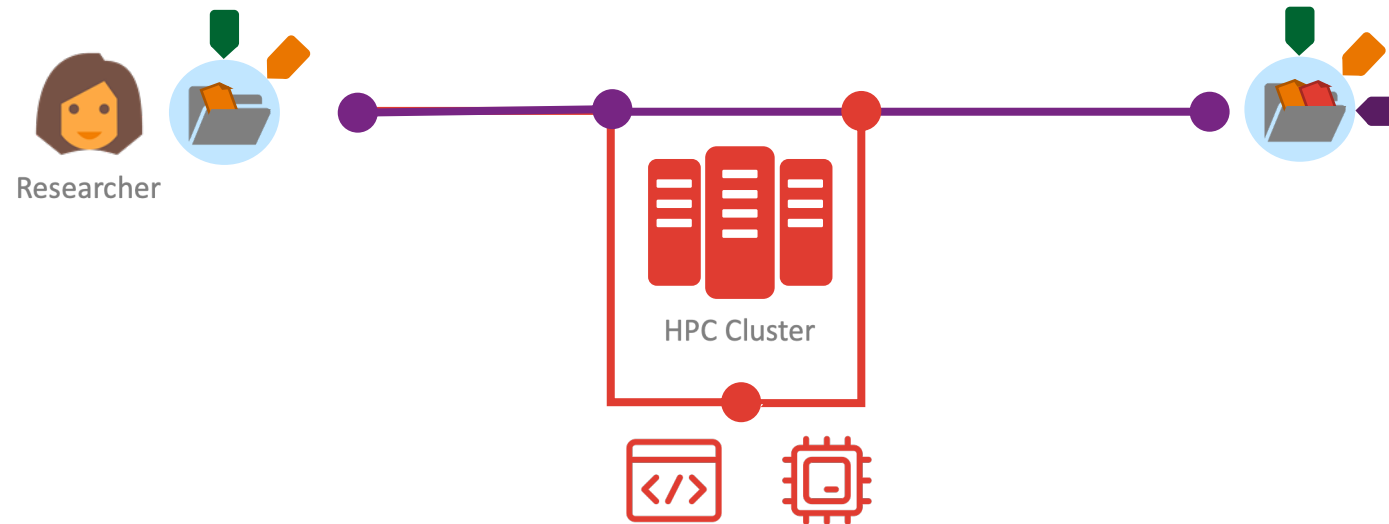

Share
dataset?

Hands on for data processing with iRODS

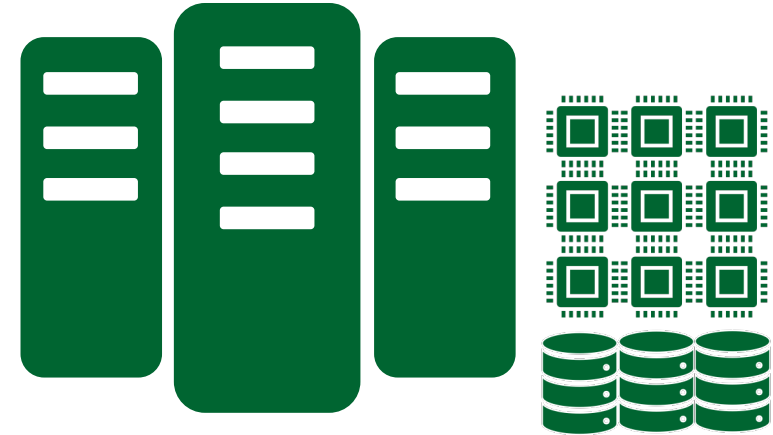

- Learn about iRODS concepts: data objects, collections, metadata handling, querying
- Learn how to handle data via iRODS icommands
- Learn how to find data based on metadata and use it in a compute job

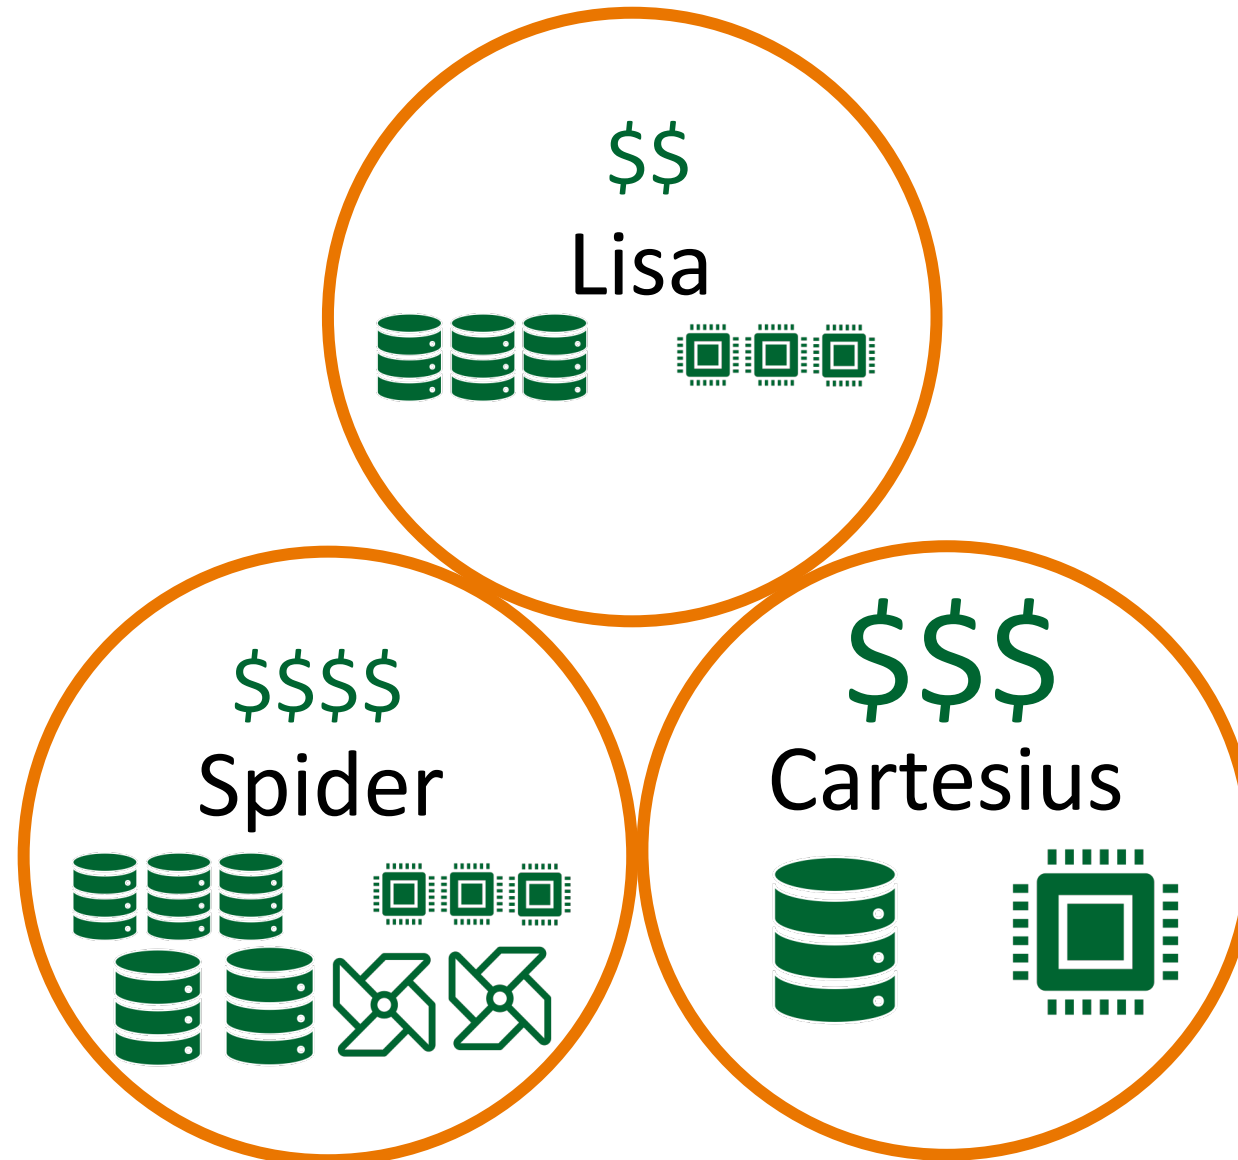

What, why, when super computer?

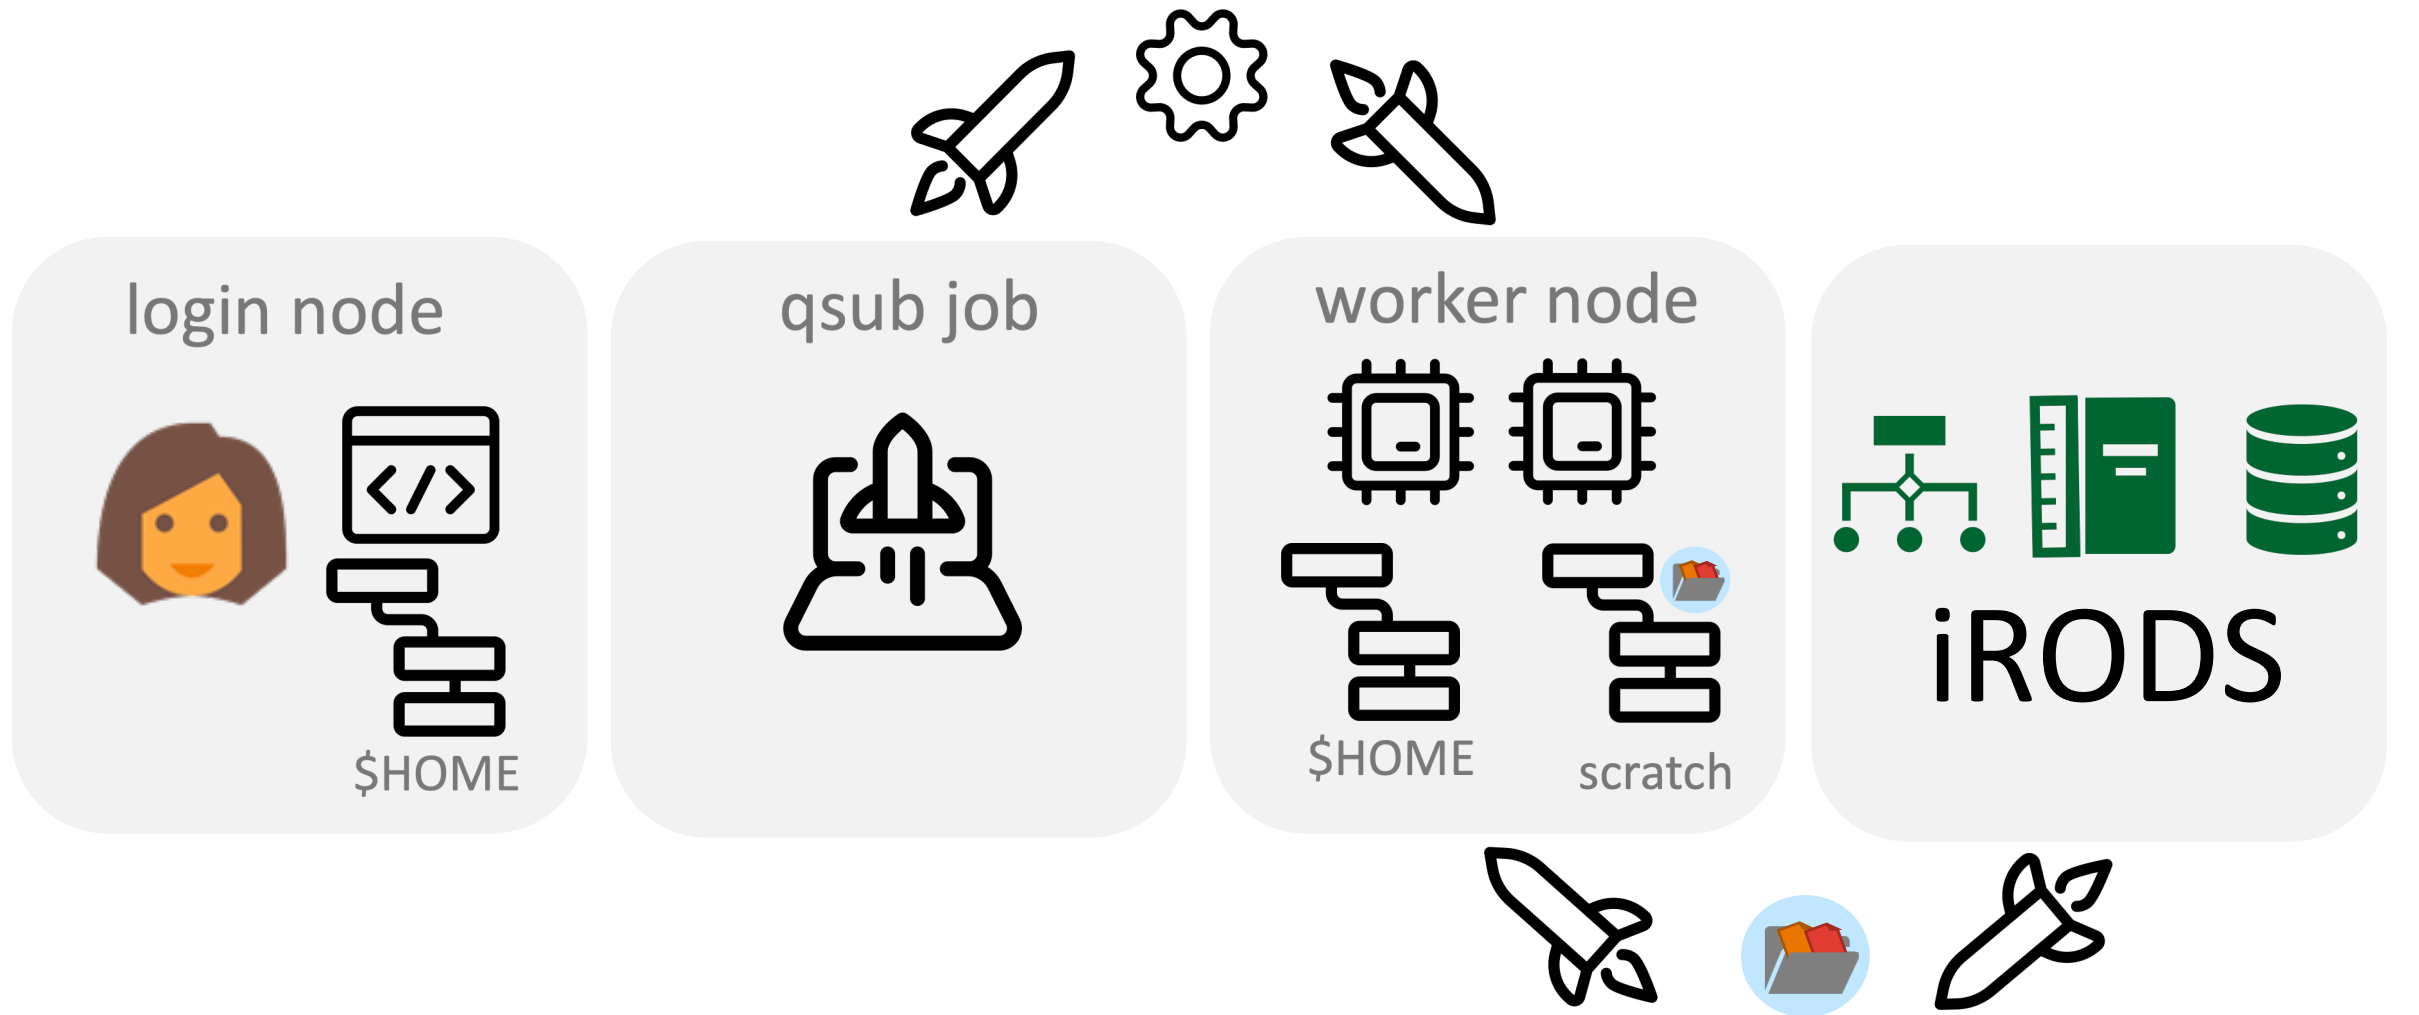

- decrease compute time
- need larger resources

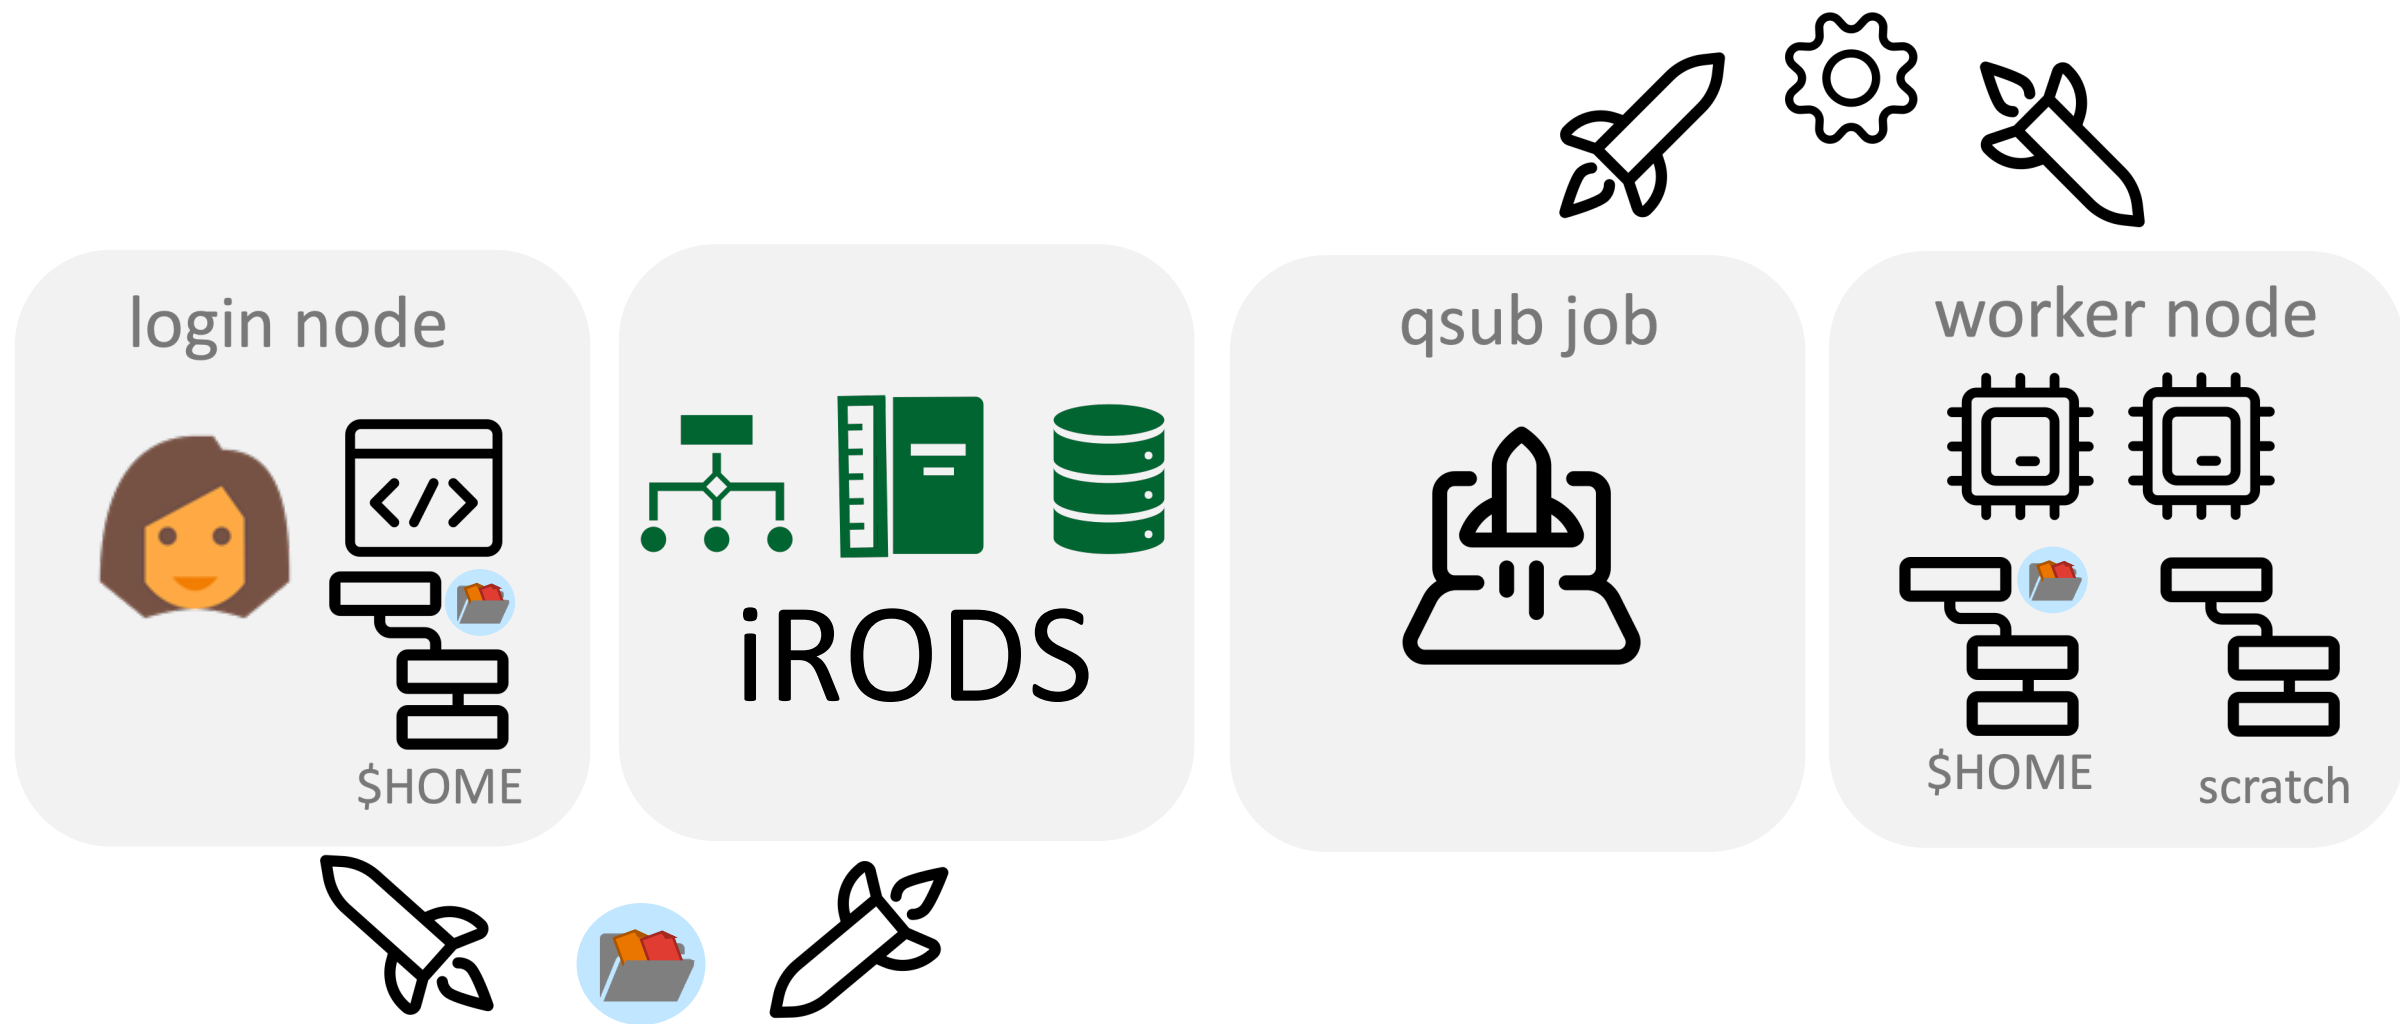

HPC@SURF: Lisa vs Cartesius vs Spider

Managing data with Lisa on the job

Managing data with Lisa via syncing with home/project space

Workflow counting words
